BOOM! Putin's Chilling Warning To Rothschild: "Our Future Generations Will be Born Without Rothschild Chains Around Their Wrists and Ankles."

In a statement about the news, **Mr. Putin** said his country is finally free from the "icy grip" of the Rothschild banking cartel and **New World Order cabal**.

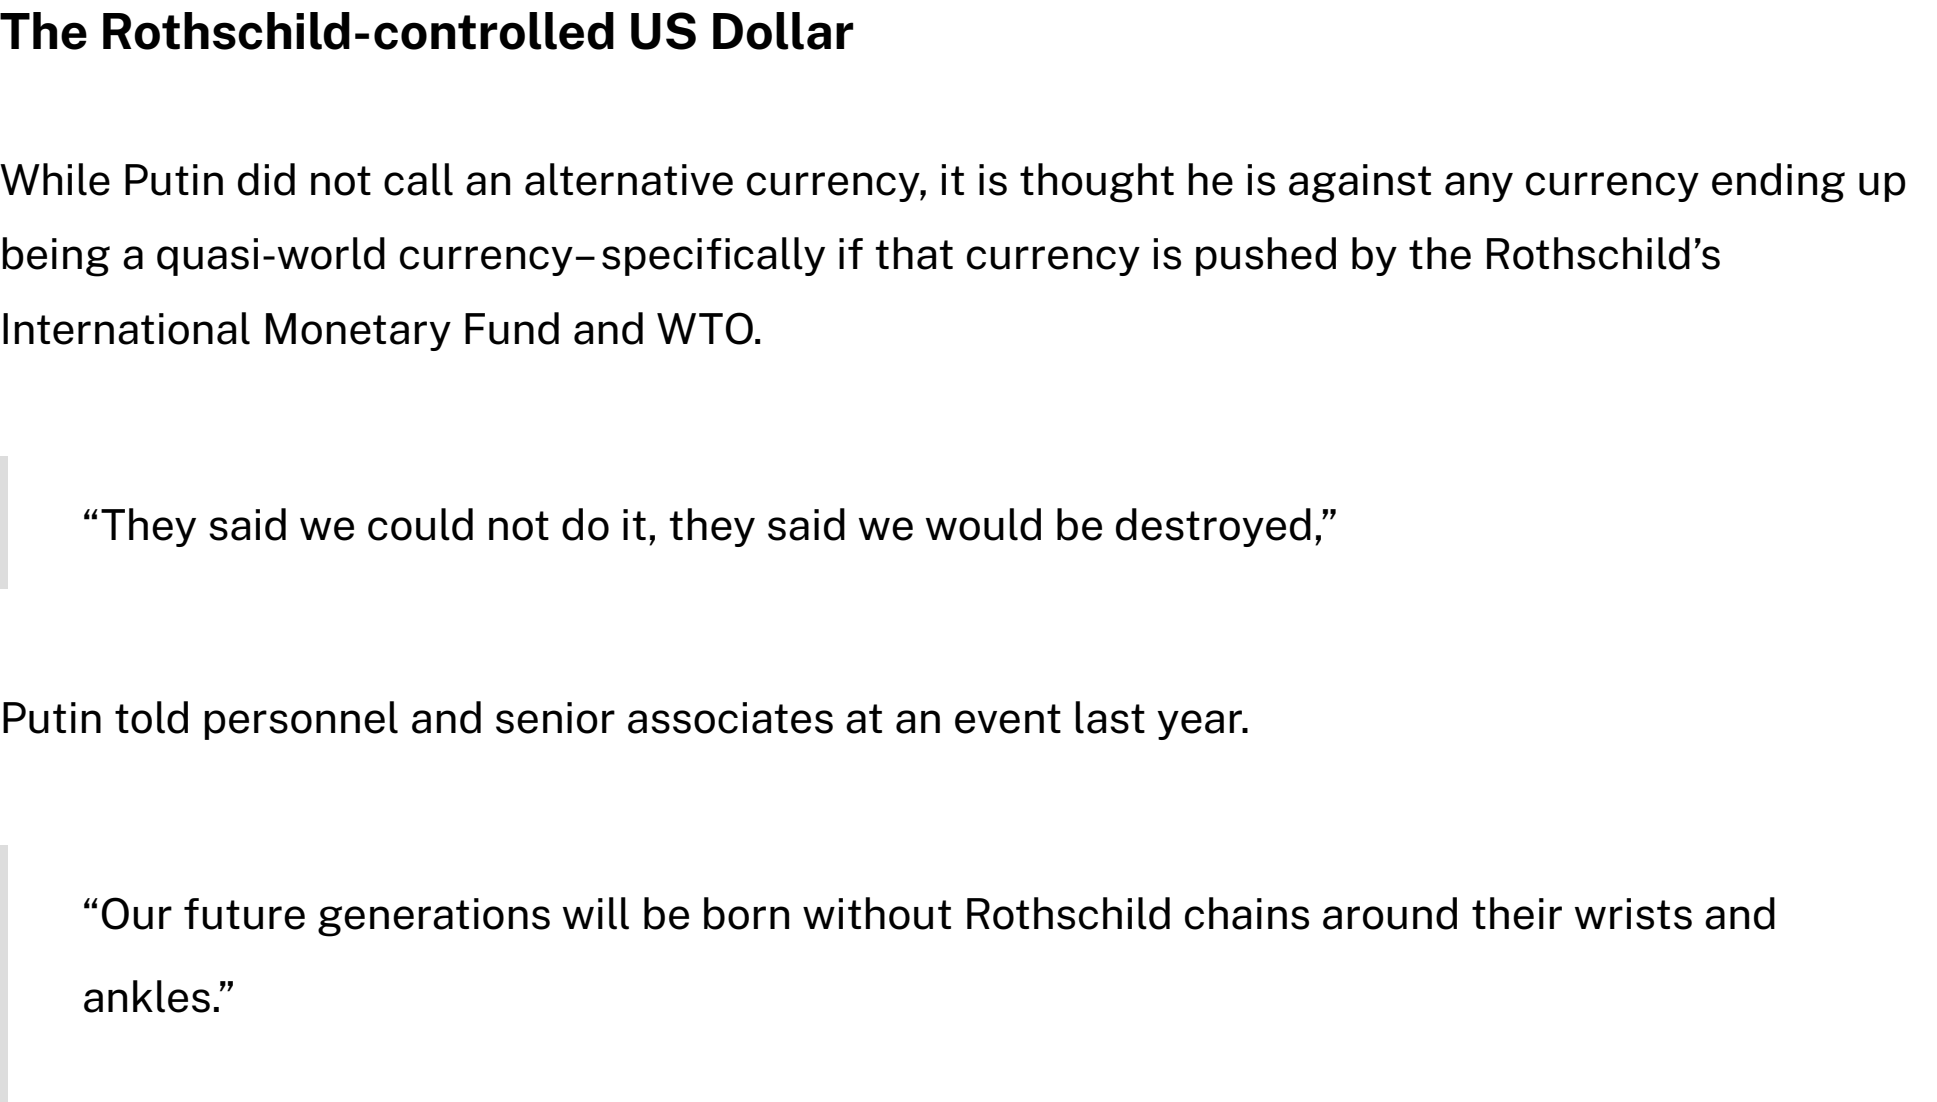

Two years previous, President Putin prohibited Jacob Rothschild and his New World Order banking cabal from operating in Russian territory **"under any circumstances."**

Now, following his current success, Putin has vowed to continue "unburdening" Russia's economy from the dangerous monopoly of the US Dollar order to guarantee Russian sovereignty in an increasingly globalized world.

Addressing the Russian Parliament following his inauguration, Vladimir Putin said that stating **"total independence"** from the worldwide banking cartel and Rothschild global money providing organizations would be the **"biggest gift"** he could provide to future generations.

"We used to behave naively, but now we see that the WTO [The World Trade Organization] rules are all too often broken, the restrictions are imposed for political reasons, which they call sanctions. Plus more and more of them are imposed to secure its favorite competitive advantages," Putin said.

He stated that the brand-new **"constraints,"** breaking the world trade principles, make the world see that monopoly of the United States dollar threatens for many areas.Putin says he's freed Russia from dependence on the US Dollar According to the Russian leader, de-dollarization needs to be promoted on principle, in order to protect the country's sovereignty.

The Rothschild-controlled US Dollar

While Putin did not call an alternative currency, it is thought he is against any currency ending up being a quasi-world currency- specifically if that currency is pushed by the Rothschild's International Monetary Fund and WTO.

"They said we could not do it, they said we would be destroyed."

Putin told personnel and senior associates at an event last year.

"Our future generations will be born without Rothschild chains around their wrists and ankles."

"This is the best present we can provide."

Russian Finance Minister Alexei Kudrin likewise spoke at the occasion and applauded Putin's accomplishment in driving the Rothschilds out of the country.

"They do not go quickly," Kudrin stated. "But we have shown it is possible.

"The greatest tradition that can be passed on to your kids and grandchildren is not cash or other material things built up in life, however, rather a tradition of liberty from enslavement."

Putin declares Russia to be finally free from the 'icy grip' of Lord Jacob Rothschild By making the last payment on all the former Soviet republics debts to the world's central banks-making Russia the first nation to set itself totally free from the oppressive grip of the **New World Order's banking system**- Putin has actually made sure future generations of Russians will not live in financial obligation slavery to the globalist cabal.

It is understood that the Rothschild banking racket was a noose tied around the neck of the Russian economy. When the knot was tightened up, the economy would struggle and choke. The International Monetary Fund (IMF) and World Bank have been major players in the global financial landscape ever considering that their creation in 1944.

These international banking organizations, which are independently controlled by the infamous Rothschild banking family, first pressure nations to decontrol their financial sector, permitting private banks to loot their economies.

Once the governments are forced to bail-out their deregulated monetary sector, the IMF or World Bank establishes a loan package composed in secret by central lenders and finance ministers that undermine their national sovereignty and require them to embrace policies of austerity that damage employees, families, and the environment.

Russia was the first country to grow wise to the ploy. They have actually worked extremely hard to gain monetary self-reliance and have subsequently finished the process of kicking the Rothschild-managed banks from their nation.

Putin's plan

Early in his presidency Putin made a priority of unifying Russia socially, spiritually, and financially. He ordered the arrest of the Rothschild backed oligarch Mikhail Khodorkovsky who had actually made Rothschild, Henry Kissinger and Arthur Hartman directors of the Open Russia Foundation.

Last year Putin advised his cabinet that he was handling the Rothschilds and globalist bankers by

"Grabbing them by the scruff of the neck and kicking them out Russia's back door"

"They do not own the world, and they do not have carte blanche to do whatever they desire.

"If we do not challenge them there will be other problems. We will not be bullied by them."

Wonder if this is the reason the Biden gang wanted to make war against Russia as soon as they got to DC?

It is absolutely the reason but not the only reason. Now the Globalists are panicking and want a world war, any war will do, to cover up the abject failure of private central banks (Rothschild controlled) and their phony fiat money. It is gonna get rough for a while, but as President Trump says, "This is the final battle..."

Lol K, Don't worry Medeea, the majority of us already know this is facts. And yes, quite the new revelation, and it finally explains EVERYTHING! We already knew that Russia (Either themselves or with "help") had already rid their country of the Oligarchs, but we never knew the back story on that, UNTIL NOW! BOOM! And that also explains their commitment to the cleaning up of the rest of the planet! Good job on this piece Medeeal It was riveting and I'm sharing everywhere!
