Quinn: "They" Will Do Anything To Win

BY TYLER DURDEN

Authoried by Jim Quinn via The Burning Platform blog.

"We'll know our disinformation program is complete when everything the American public believes is false." – William J. Casey, CIA Director (1981)

The always mysterious question when trying to figure out what is happening in this insane world and why it is happening is who are "they"? In the current chaotic atmosphere, "they" are in the process of throwing their senile child sniffing pedophile Trojan horse president overboard because his dementia ridden brain has been laid bare for all the world to see. It isn't just the Democratic Party throwing him to the wolves.

When you witness the party, supposedly loyal politicians, the regime media, surveillance state spooks, Hollywood celebrities, and globalist billionaires all simultaneously turn on the person they installed in 2020 through a rigged election, you realize the voting public have no say in how this country is run. Whether you refer to "they" as the Deep State, invisible government, ruling elite, globalist oligarchs, or shadowy men in smoke filled backrooms, we are just bit players in this surreal horror movie.

It is no longer a conspiracy theory that we are ruled by unelected men using their wealth to pull the levers of society to benefit themselves and the apparatchiks who do their dirty work. At some level, this type of control has existed since the inception of our country. Andrew Jackson's tirade in the 1830s revealed there were deceitful men operating in the shadows, with their greedy agendas prevailing over what was best for the people.

"Gentlemen! I too have been a close observer of the doings of the Bank of the United States. I have had men watching you for a long time, and am convinced that you have used the funds of the bank to speculate in the breadstuffs of the country. When you won, you divided the profits amongst you, and when you lost, you charged it to the bank. You tell me that if I take the deposits from the bank and annul its charter I shall ruin ten thousand families. That may be true, gentlemen, but that is your sin! Should I let you go on, you will ruin fifty thousand families, and that would be my sin! You are a den of vipers and thieves. I have determined to rout you out, and by the Eternal, (bringing his fist down on the table) I will rout you out!"

The capture of our government, media and financial system accelerated during the last century as described by Edward Bernays in his 1928 book – Propaganda. Of course, he wrote this fifteen years after the capture of our financial system, with the Creature from Jekyll Island – the Federal Reserve being created by a cabal of bankers and politicians intent on lining their pockets.

"The conscious and intelligent manipulation of the organized habits and opinions of the masses is an important element in democratic society. Those who manipulate this unseen mechanism of society constitute an invisible government which is the true ruling power of our country. ...We are governed, our minds are molded, our tastes formed, our ideas suggested, largely by men we have never heard of. This is a logical result of the way in which our democratic society is organized. Vast numbers of human beings must cooperate in this manner if they are to live together as a smoothly functioning society. ...In almost every act of our daily lives, whether in the sphere of politics or business, in our social conduct or our ethical thinking, we are dominated by the relatively small number of persons... who understand the mental processes and social patterns of the masses. It is they who pull the wires which control the public mind."– Edward Bernays – Propaganda (1928) pp. 9–10

The traitorous president who signed the bill creating the Federal Reserve, in the same year he signed into existence the loathsome income tax, and later promised to keep the U.S. out of World War I, before taking us into that war, supposedly regretted handing over control of the government to a small cabal of dishonorable men. Politicians and Wall Street bankers have been using the debasement of our currency to enrich themselves at our expense, ever since.

"I am a most unhappy man. I have unwittingly ruined my country. A great industrial nation is controlled by its system of credit. Our system of credit is concentrated. The growth of the nation, therefore, and all our activities are in the hands of a few men. We have come to be one of the worst ruled, one of the most completely controlled and dominated Governments in the civilized world – no longer a Government by conviction and the vote of the majority, but a Government by the opinion and duress of a small group of dominant men." – Woodrow Wilson – 1919

For decades the Deep State was able to remain hidden, working in the shadows behind the scenes, with the general population oblivious to their existence. But their existence was outed when they assassinated John F. Kennedy in front of the entire world and took out their CIA patsy on national TV. The CIA, along with their media mouthpieces, created the term "conspiracy theorist" as a derogatory term to keep the public sedated and onboard with whatever narrative they were selling.

The Church Committee in the mid-1970s further revealed the depth and breadth of the traitorous activities of the CIA and the surveillance state bureaucracy. Mike Lofgren defined the Deep State in his 2016 book, describing how the consent of the governed has been nothing more than a fantasy for many decades in this country.

"I have come to call this shadow government the Deep State...a hybrid association of key elements of government and parts of top-level finance and industry that is effectively able to govern the United States with only limited reference to the consent of the governed as normally expressed through elections" – Mike Lofgren, The Deep State: The Fall of the Constitution and the Rise of a Shadow Government

Still, anyone questioning the propaganda spewing regime organizations, and billionaires. But, since Trump's unlikely the government, media, and fake Russiagate investigation instigating a fake insurrection against him, raiding his residence encouraging them to vote exposed using a patsy to try to overthrow the president. There should be no doubt it more than spectators who After they failed by one inch tone down the vitriol. It is time to take action.

We are now at war with the more desperate by the day over the last eight years will be revealed and retribution doled out to the perpetrators. Their failure in assassinating Trump, does not mean they will not try again.

Their biggest hurdle is their ballot rigging operation only works in the swing states when the vote is reasonably close. The presidential debate and subsequent embarrassing press conferences have revealed Biden to be dementia ridden husk who can't even read a teleprompter at this point. Only the most brain-dead liberal kooks will vote for this walking dead candidate.

After Trump's triumphant post assassination attempt photo-op, with fist raised in victory, his odds of winning the election went through the roof. The potential replacement candidates for Biden are a motley crew of idiocy, failure and low IQ diversity options. When the Deep State was blindsided in 2016 with the Trump victory, they proceeded to derail his presidency by convincing him to hire their Deep State operatives into key roles, while keeping the Congress, DOJ, DOD, FBI, and CIA at war with everything Trump tried to accomplish. If he wins this time, he won't make the same miscalculations again. And they know it.

We have less than four months until the election. These being the waning years of this Fourth Turning, whatever happens from here on out will only be intensified. There will be no unity. There will be no compromise. Fourth Turnings do not wind down. They accelerate towards a bloody crescendo, with clear winners and losers. The potential for civil and global war rises on a daily basis.

Most of the ignorant, I-gadget distracted, narrative believing masses, have no clue how close the world is to erupting in violent no-holds barred death and destruction. Virtually no one is alive who remembers the horrors of WWII. That is why Fourth Turnings re-occur every eighty years or so. We forget the past and are condemned to relive it. There are several scenarios that could play out.

The Deep State may have provided Trump with a stark reminder about who really runs the show. Will he heed their warning? If so, they may let him win and then continue their control behind the scenes, letting him know they can take him out at a time of their choosing. Trump's cooperation in this scenario is possible, but after the last eight years of unbribe attacks on him, this may be unlikely.

They could try another assassination attempt, but the world is now aware of their hatred for Trump, and would likely react negatively towards all parties involved in the murder of the past and future president of the U.S. The question is how desperate are these godless authoritarians? How many innocent people are they willing to sacrifice at the altar of mammon and power, to continue their stranglehold on the political, financial, social, and economic structures of the U.S. and the western world.

Knowing they will do anything to win and remain in control of the levers of our society, what may seem unthinkable to you and me, wouldn't make these sociopaths pause for a second. They've already killed tens of millions with their fake pandemic and their toxic antidote gene therapy. All done to rig an election, enrich themselves, and cull the herd. We already know the neo-con branch of the Deep State has been saber rattling towards Russia and China.

We also know false flags are one of their favorite tools to initiate conflict and fill their coffers with blood money. Our blood and their money. We've already seen a possible scenario with their puppet Zelenskyy in the Ukraine. If you can create a national emergency through either a civil or foreign war, you can cancel the election until the emergency is over.

A successful assassination of Trump this past weekend would have initiated some form of chaos in the streets, with the political powder keg poised to be lit by this one side or the other. The Deep State is certainly capable of creating a false flag that kills hundreds or thousands of innocents, blaming white nationalist Trumpers for the tragedy. Another George Floyd incident could be cooked up, with Soros unleashing his Antifa and BLM terrorist hordes on cities across the land.

The normal citizens supporting Trump will only be pushed so far, and if they begin to fight back, all hell could break loose. This is what the Deep State wants. Chaos and violence in the streets would be their excuse to "delay" the elections. That would even cause more violence and upheaval. The Deep State thrives on violence, chaos, war, and a fearful populace, begging to be saved.

The Deep State is conducting the war against Russia. The Ukrainian soldiers are being chewed up by the Russian army, but the high-tech aspects of the war are being carried out by Americans, who are the only ones capable of operating the drones and advanced missiles being used against Russia. They know Putin's red lines. If they choose to start World War III, they will initiate an attack guaranteed to force Putin into a drastic response, attempting to ignite a conflagration across Europe, into the Middle East.

With the US/EU sanction war having pushed Russia, China and the rest of the BRIC countries closer together, China and possibly India would side with Russia in a global conflict. The use of nuclear arms becomes more and more likely as the warring countries become more desperate and pushed into a corner.

The Deep State has no qualms about killing millions to attain their goals and retain their wealth, power and control over the masses. I do believe the next four months will mark a turning point in the history of the world. I fear there will be much bloodshed, but will continue to try and decipher the path of this Fourth Turning and guide my family and anyone choosing to listen towards the light and away from the darkness. I do believe Strauss & Howe's possible outcomes for this Fourth Turning are an accurate portrayal of what awaits us within the next decade.

1. This Fourth Turning could mark the end of man. It could be an omnicidal Armageddon, destroying everything, leaving nothing. If mankind ever extinguishes itself, this will probably happen when its dominant civilization triggers a Fourth Turning that ends horribly. For this Fourth Turning to put an end to all this would require an extremely unlikely blend of social disaster, human malevolence, technological perfection and bad luck.

2. The Fourth Turning could mark the end of modernity. The Western secular myth – which began in the mid-fifteenth century with the Renaissance – could come to an abrupt terminus. The seventh modern saeculum would be the last. This too could come from total war, terrible but not final. There could be a complete collapse of science, culture, politics, and society. Such a dire result would probably happen only when a dominant nation (like today's America) lets a Fourth Turning ekpyrosis engulf the planet. But this outcome is well within the reach of foreseeable technology and malevolence.

3. The Fourth Turning could spare modernity but mark the end of our nation. It could close the book on the political constitution, popular culture, and moral standing that the word America has come to signify. The nation has endured for three saecula; Rome lasted twelve, the Soviet Union only one. Fourth Turnings are critical thresholds for national survival. Each of the last three American Crises produced moments of extreme danger. In the Revolution, the very birth of the republic hung by a thread in more than one battle. In the Civil War, the union barely survived a four-year slaughter that in its own time was regarded as the most lethal war in history. In World War II, the nation destroyed an enemy of democracy that for a time was winning; had the enemy won, America might have itself been destroyed. In all likelihood, the next Crisis will present the nation with a threat and a consequence on a similar scale.

4. Or the Fourth Turning could simply mark the end of the Millennial Saeculum. Mankind, modernity, and America would all persevere. Afterward, there would be a new mood, a new High, and a new saeculum. America would be reborn. But, reborn, it would not be the same.

The odds are stacked against us, but if we give up the fight, we will surely lose. Our choices and actions in the coming days will surely matter. We must fight, fight! Godspeed and good luck.
